> **experience and clients**

ScoutCountry - Columbus, Ohio  
(January 2009-present)

Lead interface designer working with application programmer regarding workflow and interface interaction for web app/software. Also developing branding and identity for company.

DHospitality - Columbus, Ohio  
(April 2007-November 2009)

Lead designer, developed shop drawings and designed furniture for each hotel project. Worked with manufacturer and clients to develop appropriate materials and design specs for each project.

Developed presentations for clients including sketches and 3d renderings of furniture. Also redeveloped company branding and various workflow standards.

> **what can I do for you?**

Pursuing a career in web and interface design, I'm currently seeking opportunities to work in branding and web development. However, I'm excited to work in various design fields and enjoy the diversity my design career has to offer.

Design Process

Primary/Secondary research  
Ideation sketching and development  
Concept presentation  
3D modeling/mock-up

Photography

Motorsports events  
Portfolio studio shoots  
Post processing

OHPOC.org - Columbus, Ohio  
(Fall 2004-present)

Local car enthusiast community. I've been an active designer/photographer for their events and club. Developed branding and website including t-shirts, vinyl stickers, and DVDs. Currently manage web and forum content.

Photography work includes motorsports events, auto portraits, and event documentation. Shoot at various locations such as Mid-Ohio Road Course, various auto-x events, and track days.

Dae Oh (restaurant group) - Columbus, Ohio  
(Fall 2009)

Design work for local restaurant owner included advertising campaign and various holiday specials. Work focused on appealing to specific demographic set by restaurant owner and bringing more locals to restaurants.
